## ABOUT

Final-year B.Tech student with strong expertise in Full Stack Development, specializing in building robust, scalable, and high-performance web platforms. Experienced in developing AI-powered applications and integrating cutting-edge technologies to solve real-world problems. Skilled in both frontend and backend development, database management, and cloud deployment.

## EDUCATION

<b>B.Tech in Computer Engineering</b> <i>St. Francis Institute of Technology, Mumbai</i>	<b>2022 – Present</b> CGPA: 8.2
<b>HSC (Science with CS)</b> <i>thomas baptista junior college</i>	<b>2020 – 2022</b> 86.67%

## SKILLS

<b>Languages:</b>	Java, JavaScript, TypeScript
<b>Frontend:</b>	React, Next.js, Tailwind
<b>Backend:</b>	Node.js, Express.js, Prisma, Flask
<b>Databases:</b>	MongoDB, MySQL, PostgreSQL
<b>Tools:</b>	Git, Docker, Postman, Vercel
<b>Soft Skills:</b>	Strategic Thinking, Collaboration, Communication Skills

## PROJECTS

### Alcura – Web Based Health Care Platform

*React js, Flask, Gemini API*

- Designed and developed a comprehensive healthcare web application Integrating gemini models API for symptom analysis, disease prediction, and medicine recommendation.
- Integrated a chatbot assistant using conversational AI to handle real-time medical queries and improve user engagement.
- Ensured data security and privacy by applying encryption, role-based access, and secure authentication (Firebase + Clerk).

### Forever – E-commerce platform

*React js, Express js, Cloudinary, MongoDB*

- Developed Forever, a full-stack e-commerce platform with distinct dashboards for clients (shopping, order management) and admins (inventory, analytics, user management).
- secure role-based authentication ensuring smooth access control across multiple user types.

### Rentease– Car Rental Platform

*Next.js, Node mailer, Clerk*

- Developed a vehicle inventory management system supporting economy, SUV, and luxury cars.
- Implemented user profiles and rental history tracking for faster bookings and repeat rentals.
- Added ratings, reviews, promotions, and loyalty programs to enhance engagement and retention.

## EXTRACURRICULAR ACTIVITIES /EXPERIENCE

### Technical Executive

oct 2023 - oct 2024

*Student Council*

- Managed and maintained the Student Council's digital platforms, ensuring smooth operation of events such as Mosaic SFIT and IRIS which attracted a crowd of around 1000 students with various performing artists, websites, and online services.

### Public Relation Head

oct 2024 - oct 2025

*ISTE*

- Amplified the chapter's presence by managing communications and social media, reaching 500+ students across campus. Spearheaded event promotions with compelling speeches and interactive sessions before 100+ students, creating buzz and fostering strong engagement

### Kali Linux Workshop

*ISTE*

- Hosted an engaging workshop on Ethical Hacking with Kali Linux, blending theory with hands-on practice in penetration testing, cryptography, and system security
